Addendum 1: Questions and Answers
Parking Enforcement System

Q1:   Are hand held devices using Android acceptable?
A1:   Windows platform preferred.

Q2:   How many hand held devices are required?
A2:   One hand held device. However, alternate bids for additional units will be accepted.

Q3:   Can the City also accept 3 inch wide ticket printers?
A3:   Yes.

Q4:   Can the City extend the installation deadline now currently planned for October 31st 2014?
A4:   Yes, depending on the length of the extension.

Q5:   Are the current 2 vehicles equipped with mobile data terminals?
A5:   No.

Q6:   How many permits are currently managed by the City?
A6:   Approximately 425.

Q7:   How many citations does the City issue annually?
A7:   Approximately 18,500

Q8:   How many handheld ticket writers does the City need?
A8:   Refer to answer A2 above.

Q9:   How Many LPR units does the City need?
A9:   One LPR unit. However, alternate bids for additional units will be accepted.

Q10:   Will delinquent debt collections be included in the scope of this project? If so,
   o   What dollar amount is assigned to collections annually?
   o   What is the current debt backlog?
   o   What sanctions does the City employ prior to sending to collections (i.e. DMV hold, Tax intercept)?
A10:   No. (The Tyler Technologies Munis software used by the city is expected to handle this.)
